Dear Sir or Madam,

WE ARE PLEASED TO PRESENT YOU THE 34RD WHOLESALE PRICE LIST OF plants produced in our Nursery. This year's price list includes over 300 novelties.

Cover page of the catalogue presents a new Polish variety of Robinia – *Robinia* 'Anna Irena'^{PBR}. This plant is this year's novelty with bicolored white and pink flowers. Similarly to the remaining Robinia, this tree adapts well to temporary drought and soil contamination – problems that become more and more common. We hold the rights and patents to this variety – as the owners we applied for protection within the European Union.

We would like to pay special attention to plants resistant to climate change; therefore, we offer a variety of the formerly popular and nowadays a bit forgotten *Tamarix*. This plant adapts well to drought and salinity, and is perfect for urban green spaces and gardens.

We have also introduced a new chapter entitled *terrace plants*. These are plants that can be cultivated outdoors for the majority of the year, and taken indoor only during the winter season. Among these plants you can find various varieties of *Phormium* and *Cordyline*. The most enduring from the entire family and light freezes tolerant *Musa basjoo* and *Musella lasiocarpa*, seem to constitute an interesting addition to the assortment as they introduce a scent of excitement.

We are pleased to inform you that during the last year's *Green is Life* exhibition, our stand was granted the *Golden Lauren* award in the most attractive plant stand arrangement contest. We are also proud of the fact that *Weigela florida* LIME MONSTER 'BRS1'^{PBR}, cultivated by Szmit Nursery, was awarded a gold medal. It was appreciated during the *Flowers Expo* exhibition organized in Moscow, where it was also awarded a gold medal.

We again encourage plants lovers to visit our Nursery and the display garden. You are invited to visit www.szmit.pl and www.encyklopediaDrzew.pl web pages, and our Facebook profile facebook.com/SzkolkaSzmit.

This year you are invited to visit our stands at the following international exhibitions:

☞ **Green in Life**, Warsaw, 05–07 September 2019

☞ **Flowers Expo**, Moscow, 10–12 September 2019

☞ **Green Nursery Showroom**, Konstantynów Łódzki, 28–30 November 2019

☞ **IPM Essen**, Essen, Niemcy, 28–31 January 2020

Wishing you a great gardening season.

Selling conditions

Prices provided for in our offer are wholesale net prices applicable for garden shops and garden centers, landscape architects, companies managing green areas, plant nurseries and other persons professionally involved in the plant business. We add value added tax (VAT) to our prices. VAT rate is 8% this year.

Clients making a purchase of significant value at a time are offered additional discounts.

Our regular clients are entitled to pay by transfer.

Transport

The Nursery has its own means of transport and offers deliveries of plants to any place in Poland, under conditions agreed each time with a client.

Orders

Please send orders to our e-mail address: szmit@szmit.pl or fax no.: +48 23 672 36 27.

Bigger orders are completed within 2–7 working days.

We realize orders for soil-grown plants from 01 September.

Export

We are highly experienced in export of plants and we are fully prepared for it.

Individual sale

You can purchase all plants included in our price list as well as many other plants at our retail outlet located within the Nursery premises, open in season from Monday to Friday from 7 a.m. to 6 p.m. and on Saturdays from 7 a.m. to 3 p.m.

Retail prices, approximately 20–50% higher than the wholesale prices, apply in the case of retail sale.

Sale through mail-order is not available.
